

INVERT TRAINING MODULES

KEY TRAINING AREAS

CHARACTERISTICS AND TRENDS

Dynamics of labour trafficking for both adults and children by assessing national and global data, reviewing legal frameworks and illustrating the current scope of the problem in Hungarian and Italian contexts

ASSISTING & SUPPORTING VICTIMS

Providing guidance on good practises to effectively engage with and support victims of trafficking during the screening and interviewing process for criminal investigations

RISK ASSESSMENT TOOLS

Offering instruction on utilising the INVERT risk assessment tools to help gather information on the presence of risk factors linked to the characteristics of companies & potential victims and to guide investigations

DEDICATED TRAINING PROGRAMME

Applying the theoretical knowledge in operational scenarios in order to increase the multidisciplinary capacity of LEAs and prosecutors in the identification of THB & labour exploitation indicators

INVERT's training modules are designed to:

1

BOLSTER THE PROFESSIONAL AND TECHNICAL SKILLS.

2

IMPROVE EFFICIENCY AND INVESTIGATION PROCESSES.

3

FOCUS ON UNDERSTANDING NATIONAL AND GLOBAL DATA.

JOIN INVERT

in spreading its insights and innovations to combat labour trafficking and securing justice for victims.
